28550.

Complete details are on page 86 of CQ for April 1989.

MEETING NOTES

Our March meeting was held Tuesday, March 21, at the Days Inn.

Ken (K4TEA) called the meeting to order and introduction of members followed.

Neil, KC4MJ gave a report on the recent Yemen operation conducted by a medical doctor -- Dr. J. Schovenberg -- from The Netherlands. The club voted to send a contribution to Dr. Schovenberg of \$50 to assist him in replacing his confiscated radio equipment.

Plans for the Annual SEDXC Invasion of Dayton Hamfest were revealed by Ken. SEDXC will co-host a hospitality suite at Stouffers Hotel, Suite 525 Friday and Saturday. The Kansas City DX Association is participating with SEDXC for this year's gala. Club members are invited to drop by; bring your family or friends.

Hugh (N4RJ) will again host the June Field Day picnic at his SuperStation. Details will be announced in next month's bulletin.

The Atlanta Hamfest (July 8 - 9) coincides with our annual club banquet. Jim Streible is busy finalizing plans at this time and

details will be available at our next meeting. Plan now to keep Saturday evening open (July 8) for dinner and a good time.

DXPO plans are being made by Carl, WB4ZNH for the September event. Program suggestions are welcome from the membership. Please contact Carl with your ideas.

The SEDXC has planned an upcoming program on antennas. Do you have a design you would like evaluated, a trouble-shooting problem that has you stumped?? Send a drawing of your antenna idea/problem along with specifications to Jim Streible. The club is most fortunate to have among its membership a world-class antenna whiz, Dave, who will conduct one of his antenna "fact and fiction" talks using the designs and problems that are sent in.

Sandi, KL7JAR
Secretary SEDXC
