

I'd like to give a couple of commercial plugs this month. One of our former members, N4DA, is in the amateur equipment repair business. If you need any work done give him a try.

If you are familiar with the magazine RADIOSPORT, I would highly recommend it. The May issue was especially interesting. It had an article from the USSR on their FCC catching a well known contester running excessive power and taking his license away permanently. There was also an article by K1GO on excessive power.

BAND COUNTRY LISTING

Every DXer eventually reaches a point where the new ones are few and far between. Many go inactive for years since there is nothing to chase. CHASING AWARDS will create some activity, but don't hold out in the long run. You've probably heard the term band countries. Many SEDXC members do chase band countries to stimulate activity. There is no award that I know of for this effort and no outlet to post their progress. If there is enough interest I would like to print the standings a couple of times a year. I'll put out some ground rules and you send me your totals. You can send worked and confirmed.

1. Bands 160 - 10 meters.
2. Modes - CW, SSB, AM PHONE (Crossmode OK).
3. To start we will show mixed totals.
4. Any country that has been recognized by the ARRL DXCC desk since the inception of the Post-War DXCC. The operation must have been accepted as valid by the DXCC desk.
5. Stations must have been worked from the U.S.A. 48 state area.

During the summer lull go through those QSL's and see what you've got. I hope we get enough interest to get the program going. This "hunt" will keep you busy for years to come.

The HAMFEST will count as a meeting of the Southeastern DX Club/Contest Group. Please sign in at the booth, especially our out of town members.

DE K4JRB.....

May DXCC ENDORSEMENTS

K4TEA	320	Mixed
WN4KKN	186	Mixed
N4JF	310	CW

June DXCC ENDORSEMENTS

WN4KKN	150	CW (new)
K4TEA	100	160 (new)
K4PI	307	Phone

DXCC HONOR ROLL COUNT (SEDXC MEMBERS)

Mixed 29
Phone 9
