JUNE & JULY 1990

NEXT MEETING JUNE 20th 1990 at the PHIPPS COMMON MEETING ROOM

MEETING STARTS AT 7:30 PM JOIN US THERE FOR A GOOD MEETING AND LOTS OF FUN.

MINUTES OF MAY MEETING.

The meeting was called to order by President Dave Thompson, K4JRB at 7:30 PM. Introductions were made with one new member present, N4XMX.

Dave inform us that our meeting would be held at Phipps Plaza beginning next month. There is a place where we can all congregate to eat before hand if anyone is interested.

Neil informed us that John Fung Loy was definitely going to be the speaker at the DX Banquet.

Tad urged everyone to pay their dues which are due in June.

Dave discussed the Hall of Fame Nominations.

We will have a booth for the Atlanta Hamfest. Volunteers were requested to man the dooth on Saturday and Sunday. Call Phil Latta, W4GTS, at 973-2185 to sign up for a one hour slot at the booth.

The new slate of officers for the comming year are:

President	Neil Foster	KC4MJ
Vice President	Randy Tudor	K4ODL
Treasurer	Tad Williamson	WA4CUG
Secy./ Editor	Dick Bentley	K2UFT
Activities	Bill Fisher	KM9P

These will be voted on in June and installed at the banquet in July.

a. N4UCK, Jim Altman talked to us regarding the various tower cases in the metro counties. There is a meeting in Decatur on June 5th at 7:30 PM and everyone is urged

to attend to show strength in the community. (Leave the Walki-Talkies home.)

Dean, W8ZF and Jack, AA4LU gave a very interesting program on Packet and their new DXbase logging program. Dean reported that we have about 180 to 200 packet users.

Meeting was then adjourned.

HELP OUT AT THE HAMFEST:

Don't forget to call Phil Latta, W4GTS at 973-2185 and sign up for an hour at the SEDXC booth on Saturday and Sunday.

FOR SALE:

- Kenwood TS-820 w/Xtrenal VFO & CW filters \$550.00
 - AEA MBA Reader - Model MBA-RO reads Morse, Baudott, and ASCII - Like New - \$90.00
 - Johnson Kilowatt Match Box - This is the big one and they don't make them like this anymore!! \$175.00
- Contact Harry Saunders, K4GFH, Phone 352-2946.

NEXT YEARS DUES ARE DUE !!!!!

Tad would like to remind everyone that the dues for 1990-1991 should be paid at the June meeting. They are \$ 18.00 for the year so get them to Tad. If you don't get to the June meting mail them in or bring to the banquet in July.

***** ANNOUNCEMENT TO ALL DXers *****

The SOUTHEASTERN DX CLUB will host its annual banquet on Saturday, July 7, 1990 in conjunction with the Atlanta Radio Club and the 62nd Annual Atlanta Hamfestival.

WHERE: Hyatt Atlanta Airport at the Georgia International Convention and Trade Center Banquet Room.

WHEN: 7 PM, Saturday, July 7, 1990.
Informal open bar starts at 6PM
(all times EDT).

PRICE: \$21 per person includes meal, tax, tip!

GUEST: John Fung Loy, PA3CXC/STO.
Southern Sudan.

This will be the premier showing of John's STO program and it promises to be a great show.

FLASH: John was just awarded the Marconi Group's Golden Award for his stellar STO operation!

Information or reservations on the banquet go to Dave Thompson, K4JRB, SEDXC President, 4166 Mill Stone Court Norcross, Georgia 30092.

Information packets on the Atlanta Hamfestival go to P. O. Box 77171, Atlanta, Georgia 30357.

BOTH THE BANQUET and HAMFESTIVAL are held at the same location!!!!!!

DXbase by

SCIENTIFIC SOLUTIONS, INC.

A FULL FEATURED PROFESSIONAL
DX Software System

736 Cedar Creek Way,
Woodstock, GA. 30188

✓ PRODUCT DESCRIPTION

DXbase is a state of the art software DX Tracking System which fully integrates your computer, VHF Packet and your HF transceiver *with an extraordinary array of easy to use features at a very reasonable price.

✓ USER-FRIENDLY INTERFACE

- Completely menu driven
- Context sensitive help at the push of a key for every field.
- Beautiful color entry windows
- Extensive error checking

✓ POWERFUL DATABASE DESIGN

- Indexed relational databases fully integrated to support:
 - Advanced QSO Logging
 - QSL information retrieval
 - Standard country prefixes
 - Alias prefix mapping
 - Station note pads
 - Tunable station options
- All databases can be easily updated on line by the user
- Rapid retrieval of any record

✓ EXTENSIVE DXCC AND WAZ STATS

- Display numerical DXCC stats by band, categorized for CW, SSB, or mixed mode. Includes separate counts for worked or confirmed, and all band totals
- Display country need lists categorized by band and mode. Includes separate listing for countries confirmed, not worked, and worked but not confirmed.
- Display complete WAZ stats by band and mode categorized by confirmed, not worked, or worked but not confirmed.

✓ PRINT MANAGER ADDRESS LABELS

✓ PRINT QSL LABELS

By Label Indicator Field or Countries Needed

✓ AUTOMATED QSO LOGGING

- Completely Validates Entries
- Auto Populates:
 - Date and Time
 - Zone
 - Oblast
 - Band
 - QSL Label Flag
 - Mode CW or SSB
 - Beam Heading
 - Distance
 - Sunrise/Sunset
 - Default Signal Reports
 - Standard DXCC Prefix
- Allows for deleted DXCC countries to be noted.
- Properly handles counting of CW QSO's for DXCC.
- Automatically retrieves QSL address info based on call sign of station logged.
- Automatically displays WAZ and DXCC Status based on Callsign Logged with total breakdown by band, mode, worked, confirmed, or needed.

All you need to do is enter the call sign and verify the rest. And, if you're logging a station announced on packet, DXbase will auto populate the Callsign and change your HF Transceiver to the frequency and mode too!

- Find and update QSO's instantly by date or call. And you can page a screen at a time too.

✓ SUPPORTS DOT MATRIX AND LASER PRINTERS

✓ PRINT LOGS SORTED BY DATE OR CALL

✓ STATION NOTEPAD REMINDER

Full featured text editor lets you create and retrieve schedules and other notes.

✓ INTELLIGENT IMPORT AND EXPORT

- Export DXbase Database to standard ASCII Files
- Import fixed length ASCII to DXbase.
- Import CT by K1EA, CQWW, WPX, ARRL ASCII FILES to DXbase.
- Import Easy DX log print file to DXbase.

✓ COMPREHENSIVE PACKET INTEGRATION

- VHF Packet runs simultaneously with all DXbase functions including screen displays.
- Intercepts incoming DX Alerts, checks your database to see if you need it, based on user controlled options, and sounds a distinctive alert if needed, all automatically.
- Stores frequency, call sign and time stamp of last 20 alerts needed and will automatically set your HF transceiver* to the frequency and mode of the entry selected.
- Upload and download ASCII files over packet with the push of a button.
- Allows you to set alert filters by individual band and mode including the ability to set alert category. I.E.
 - Band countries by CW or SSB
 - All time new ONES
 - Band countries by mixed mode and more...
- Automatically formats and sends DX alerts with the push of a key; frequency, including split info, is retrieved from your HF transceiver and callsign is retrieved from your log field.
- Supports Packetcluster™ and also local area networks
- Full packet transmit and receive screen using built in layered and split screen windows.
- Memory recall resets original HF transceiver mode and frequency when your finished working the DXAlert.

• • • AND MUCH MORE • • •

*Supports Kenwood TS950, TS940, TS440 ICOM IC 781, IC 745 and IC 761, with RS232 interface (not furnished). Support for other radio's continues to be added.

HARDWARE REQUIREMENTS:

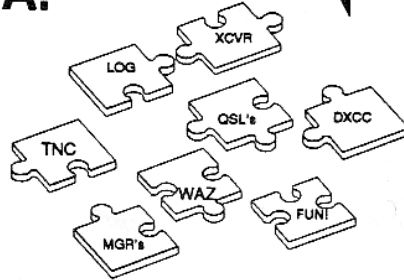

- IBM® PS/2, AT, XT, or Compatibles
- Hard Disk Drive
- 350K memory

- 1 5¼ or 3½ Floppy drive
