OCTOBER 1989 - NEXT MEETING OCTOBER 17 AT DAYS INN AT 7:30 PM
WINDY HILL ROAD & I-75. COME EARLY AND HAVE DINNER WITH US.

PRESIDENT: DAVE THOMPSON, K4JRB 448-0588
VICE PRESIDENT: NEIL FOSTER, KC4MJ 449-3340
SECRETARY: ANN STREIBLE, KB4SSS 993-1767
TREASURER: TAD WILLIAMSON, WA4CUG 696-7803

DXPO - 1989

Our thanks to Carl, WB4ZNH, and all who helped him to make DXPO a reality. There were not as many DXers in attendance as we had hoped but I believe everyone there had a very enjoyable time. What better place to be on a rainy weekend.

Programs were presented by Vince Thompson, K5VT on 5R8VT from the Malagasy Republic and the banquet presentation by Vince was on 3D2VT, Conway Reef.

Other programs were presented by John Crovelli, W2GD on his operations from P40 & OJ0; Dave Schmoker, KJ9I on VK9ZM and VK9ZW; Ramon Brett, YV5EED on YV0 and their YW5LR Angle Falls expedition; Bob Winn, W5KNE on St. Paul & Sable Island; Bob Allphin, K4UEE gave a show on his XF4DX operation; Don Search, W3AZD was on hand to check QSL cards and gave an update on DX matters.

The banquet was a big success. Vince Thompson kept us laughing. It was a great weekend and we made money on it too. Wish more of you could have been there.

DUES

If your dues haven't been paid, please send your check to our treasurer, Tad Williamson, WA4CUG, at 5877 Brookside Dr., Mableton, Ga. 30059, or bring them to the meeting on Tuesday. Let's try to have all dues in by October 17 (meeting date) since they were due in June.

CHECK THE EXPIRATION DATE ON YOUR LABEL.

Expedition to Bouvetøya 1989/90

News Release #3
Oslo 10 September 1989

New date for decision on ship with helicopter: 15 October.

Decision date deferred upon request of one ship-owner and to improve alternatives. Target date 22 December for landing unchanged. Leading Norwegian zoologist responsible for scientific part of expedition. Contributions: Japan far ahead with 62% of amounts from ham world. Discussions held with another group.

Further clarification of ship alternatives and more funding is required before taking final decisions. Club Bouvet is grateful to all those who have contributed so far and wishes to encourage those who help promote the project locally.

We have been invited to go as guest operators with a much larger group with 18-20 hams and scientists in February and to abandon our own plans for an expedition in December. The other group, wishing for the time being to remain anonymous, is believed to be fully funded already by non-ham money.

Disparities between the two expeditions:

- a) Club Bouvet demands more ample margins in its schedule, for bad weather.
- b) In a place like Bouvetøya, where there are many hazards and where space is severely limited by animal life and terrain constraints, we prefer an operation with a smaller number of people over a relatively long period of time (number of operators not yet final).
- c) Club Bouvet has a strong preference for using helicopter, to greatly improve probability of QSOs with Japan, Australia, New-Zealand, USSR and Eastern Europe if a second, temporary "short path station" can be set up to work from those parts of the world which otherwise could only be worked long path from the base camp on the western shore. Helicopter also helps cut drastically time and risk in landing and departure operations and generally enhances probability of success. The other group's vessel cannot carry a helicopter.
- d) Finally, timing of the two expeditions is incompatible, inasmuch as Club Bouvet operators depend on using Christmas to reduce absence from work, and because of other commitments.

From the above, it can be concluded that as of today, a joint expeditions seems unrealistic. In any event, we shall give the other expedition the help we can.

We take it that our supporters wish that we proceed to try to fulfil Club Bouvet objectives.

Ham funding statistics (8 weeks after start of campaign):

- Contributions actually received: 65% (of 100.000 USD target).
- Pledged and received amounts together: 76% (no major US foundation)
- 252 supporting members/sponsors in 23 countries (w/ u be among first 500?)
- Geographical distribution, amounts received: Japan 62.4%, Norway 20.7%, USA 6.0%, Australia 4.0, Canada 1.7%, Spain 1.1%, W Germany 0.9%, France 0.9%, Sweden 0.7%, Switzerland 0.4%, Mexico 0.4%, others less than 0.2%.

We think one operator on Bouvetøya could probably work all stations in this list within one hour, under favorable conditions. Where are all the other guys? Where is your buddy? Do you miss any Club, true-blue Big Gun or Small Pistol, Newcomer og Oldtimer in the list? Why not call them up?
