

SOUTHEASTERN DX CLUB

DX Alert 147.500S
also 147.195/.795
DX Ragchew 147.470S,
.540S, 147.195/.795

Meeting Date: December 4 1982
Time: 1 pm Saturday
Place: SOME PLACE ELSE (EXCELLANT FOOD)
MAP ON PAGE 3. (AND SPIRITS)

IF LOST CALL HAROLD HARPER (OWNER)
@ 973-5929

The December meeting (as discussed at the November meeting) will be informal social get-together with XT2AW, Harald Becker. Harald has been very active and has given many of our club members a new DXCC country as well as many many band countries. He has been extremely helpful for folks working on 5BDXCC. In fact, on Nov. 22, 1982 at 0545Z, Harald provided what is believed to be the first intercontinental 160K contact from Upper Volta when he established contact with Ed Richmond, W4MGN.

The group should be there for several hours, so even if you can't make an afternoon of it, try to come by and have a brief eyeball Qso with Harald.

The November meeting was thoroughly enjoyed by all in attendance. Your editor, unfortunately, could not attend. The Kansas City DX Club VHS tape brought lots of laughter and we certainly appreciate both their efforts and their generosity in giving us a copy of the tape.

Elections were held and the suggested slate of officers, proposed by the nominating committee, was elected by acclamation. Darn! I guess that is what I get for missing a meeting!

President - Harry Saunders, K4CFH
Vice President - Carl Henson, WB4ZNH
Secretary - Grover Meinert, KC4BX
Treasurer - David Hibbert, KC4TJ
Contest Director - Lee Sheridan, W6OKX

It is easy to see how we got into having the banquet in Januarys. Ed Richmond, W4MGN, has made a previous commitment and is unable to help us with the banquet program as we had hoped. The American Legion post was not available on the date we wanted either. I suppose some

better planning might be in order!

Good News! Bill Dunbar, WA4VDE, (our transplanted yankee!) is home from the hospital after surgery and is recuperating nicely. Looks like Dot will be feeding the chickens and Bill will be chasing DX. Come to think of it, that doesn't sound like there will be much of a change!

TL8CE says the reason he has been unable to pull off his TT8LM operation is because of a recent health problem. TL8GE is rumored to go there soon for three weeks and perform ballet for some lucky list-taker! Maybe when he leaves we can get a trained seal to third-party operate for a while.

FB8WG should be QNT by now. His replacements are enroute, FB8WH and FB8WI. Let us hope that at least one of them is interested in Amateur Radio.

Clipperton Island possibilities are being talked about quite a lot by FO8CW. For those that missed that one last time, this could be your chance.

QRZDK reports activity from 3X, YI, VK0 (MacQuarie), VK9Z, 3B9, 5H3, and FW.

Bruce Montgomery, W4BFR, called the other day. Bruce has the original letter that was mailed out by the "founding group" of DXers, who formed the Southeastern DX Club. It is important to note that the date was March 10, 1958. We still have 2 charter members still active in SEDXC, Bruce and Clay Griffin, W4DKI. We found out this information just in time to celebrate the 25th Anniversary of the Southeastern DX Club. Your club officers are trying to put together a plan for a meaningful 25 year celebration. Your suggestions and assistance will be greatly appreciated!

Speaking of Bruce, W4BFR, I am given to understand that he is now in receipt of his China card, making Bruce the second member of the SEDXC to have collected them all. Congradulations, Bruce!

For Sale - Kenwood TS-520, VFO-520 and Speaker. Call Matt Blender, W4NGX. (404) 451-5873 Home, 955-7405 Work.

For Sale - Kenwood TS-820S, VFO-820, SP-820, 500Hz. CW filter, and Alpha 274P (3 ea. 8874, and Hpersil transformer!). Call Harry Saunders, K4GFH. (404) 352-2946 Home, 581-2322 Work.

For Sale - Yaesu FT-101E. Call Jim Mullin, KC4IK. (404) 993-5710 Home, 993-1234 Work.

A REAL DEAL - a tower (purported to be Rohn 25) approximately 75 - 100' with some sort of tri-band antenna, buyer must be completely responsible for removal. Lowest quoted price \$150, but you might get it cheaper than that! Contact Anita Burbage in Carrolton, Ca. 832-3474

Super Deal for BIG GUN station!!!! Complete tower and antenna installation (again, you take down) original cost less than 2 years ago was \$6000.00!!!! For Sale for \$2500 total. Includes (but probably not all listed here!) 90' of Rohn 45, a 30' mast with 1/4" wall, Telrex's largest Rotator (originally cost over \$1000.00 alone!), all cable (12 conductor rotor originally about \$300, coax, and guy), Telrex Monobanders (20M 6 element 48' boom, 15M 5 element 32' boom, 10M 5 element 24' boom), antenna switching box, \$200 worth of thrust bearings, guy brackets and torque arms, and probably more! Mike Greenway, K4PI, will vouch for the fact that the installation is top notch and well built. Contact Jerry Green in Douglasville, Ca. Home (404) 949-1837 Work (404) 526-2564

I goofed! In the last issue of the SEDXC Newsletter, I mentioned that we now have permission to use the 30 M band. I reported that we could operate CW and RTTY between 10.100 and 10.150 Mhz. That is not altogether true. We can operate from 10.100-10.109 and from 10.115-10.150. I sincerely hope no one operated out of the band due to my incomplete information.

Speaking of the 30 M band, Lee Sheridan, W6OKX, tells me that he has 49 states and 31 countries worked on 30 M! He lacks only GEORGIA for WAS!!!

The best wishes for the Holiday Season to each and everyone of you!
